

We have adopted Pickens County School Districts Covid-19 plans regarding mandatory face mask, social distancing and in case of a positive Covid-19 test results for staff/students. Face mask/covering will be required anytime proper social distancing is not possible. Face mask/coverings will not be required during meal times or physical activities, such as roller skating. Social distancing will still be followed as much as possible whether masks are on or not.

Breakfast, lunch, and a light snack will be provided for free providing that we are still able to receive it from our community partnership program. If their program is not able to provide the food for free, we will look for other community partners or provide meals with an additional charge.

Weekly rate = \$135.00 per week

Hours of operation 7:30am-5:30pm (Doors open at 7:30am)

It is possible that I will have to adjust our weekly rate based on cost of operation, number of teachers required, and the needs of our community. A minimum of 30 students required to operate.

Payment for weeks 3 and 4 Sept 8th-11th & Sept 14th-18th will be required no later than Sept 7th 2020. If payment is not made by this date, your spot will not be guaranteed. Currently our registration will be capped at 75 students, all students enrolled in Pickens County School Districts traditional schools will be accepted including Virtual academy. Students that are enrolled in an alternative school may not be accepted as the safety of our staff and students is our top priority. If your student has been expelled from traditional school, a release form must be signed by the parent/guardian giving Travis Smith permission to discuss your students' school records with the Pickens County School District and its employees. Enrollment in our program can and will be denied to any student that I deem to be a threat to others, have been suspended for violence, drugs...etc

Certified teacher/teachers will be available to assist your students with their school work, internet will be provided, along with a space to do their school work. After students have completed their school work, activities, crafts, and roller skating will keep them busy the rest of the day.

If you have any questions feel free to call Travis at 864-551-3099, be sure to leave a voicemail or send a text message if no answer.
